---	---	--	---	---

# Session 2: TB in the mines and workplace

- Chair: Dr B Kistnasamy
- Moderator: Dr Rabada
- Objective: This session will discuss lessons regarding TB in the mines and highlight opportunities for improving TB outcomes in other workplaces. The session will also explore the issue of compensation of current and ex-mineworkers.

# Session 2: Private sector TB care

- Chair: Dr A Pillay
- Objectives: This session will explore TB care in the private sector, and determine how collaboration may be improved between public and private sector to improve TB case findings and treatment outcomes.

# Session 2: Civil society support for NTP priorities

- Breakaway leads: Mr Mabalane Mfundisi
- Moderator: Nteseng Legopelo
- Objective: The session aims to explore how civil society can be leveraged for improving community engagement, communications and accountability for TB control and research with special reference to the social determinants of TB.

# Session 2: Cross border issues related to TB

- Chair: Mr Ramphelane Morewane
- Objectives: This session will aim to develop recommendations to address cross-border TB control challenges including political commitment, financial mechanisms and adequate health service delivery.

# Session 2: TB innovations

- Chair: Prof Kogie Naidoo
- Objectives: This session aims to understand the latest advances in TB prevention, diagnosis, and treatment, and TB data systems, and agree on how to accelerate implementation of innovations.
